Seats and Winds

In a given hand, there will always be a wind of the round and each player will have their own seat wind. Both are in order E-S-W-N. East seat is dealer. Once every one has been East then the round wind changes to next.

What makes a winning hand?

During play, players will have 13 tiles, winner will take a 14th tile to complete 4 sets of chows/pongs/kongs and a pair of “eyes”.

During your turn:

- Draw a tile
- (optional)
 - Declare hidden kong
 - Meld exposed pong into a kong
 - Declare Mahjong
- Discard a tile

When others discard:

- **Chow:** call to complete a run. **Can only do if next in turn**
- **Pong:** call to complete a 3-of-a-kind
- **Kong:** call to complete a 4-of-a-kind. Draw another tile from dead wall
- **Mahjong:** last tile needed to complete hand. Can be for completing any set including a chow.

If multiple claims, priority is Mahjong, pong, chow
